RE: Water Supply Well Sampling Results – Wallace Airport (NONCD0002913)  
Wallace, Pender County

Dear Mr. Livingston:

Please find attached the Sample Analytical Results for a water sample collected from your well located at the address referenced above, on August 19, 2015. The sample was submitted for laboratory analyses for Volatile Organic Compounds (VOCs). A slight detection of Trichloroethene was noted, therefore the lab results were sent to a State Toxicologist for further review. As noted in the Health Risk Evaluation attached, the slight detection did not exceed applicable standards. As such, the use of your well water is considered safe and should not result in any adverse health effects.

If you have questions or comments, feel free to call me at (910) 796-7340.

Sincerely,

David L. Brown, L.G.  
Division of Waste Management
